

SUNSMART POLICY

PURPOSE

The purpose of this SunSmart policy is to encourage behaviours at Lynbrook PS to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available via the SunSmart widget on the school's website, the free SunSmart app, or at sunsmart.com.au or bom.gov.au.

Lynbrook PS has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

Shade

Lynbrook PS will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

School council approved this policy on 9 December 2019.

- where students congregate for snack and lunch in the courtyard
- the canteen area
- outdoor lesson areas
- popular play areas
- assembly areas
- sporting grounds- pavilion shade area

When building works or grounds maintenance is conducted at Lynbrook PS that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

Lynbrook PS recommends that from mid-August to end of April, and whenever UV levels reach 3 and above, students come to school wearing sun-protective clothing such as:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- rash vests or t-shirts for outdoor swimming activities.

Lynbrook Primary School's school uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- rash vests or t-shirts for outdoor swimming activities.

From mid-August to 30 April, all students **must** wear a sun protective hat (orange bucket hat) that shades the face, neck and ears for all outdoor activities. Hats may also be worn for all outdoor activities outside of the August to April time period, by parent or student choice.

Staff and students (orange bucket hat) are encouraged to wear hat styles that protect the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket.

Students are required to wear a school hat or another hat style that protects the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket. Students who are not wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun (near Art room).

Sunscreen

Lynbrook PS encourages all staff and students to apply SPF30+ (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to [manufacturer's instructions](#).

At Lynbrook PS students are welcome to attend the sick bay to access sunscreen. Staff and students who may suffer from allergic reactions from certain types of sunscreen are encouraged to contact Jo Hawkes to implement a management plan to reduce the risk of an allergic reaction at school.

School council approved this policy on 9 December 2019.

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, Compass, school website, staff and parent meetings, school assemblies, school camps and at the student orientation/enrolment process.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside. It is the responsibility of the parents/guardians to ensure their child/children are dressed appropriately and provided with sunscreen if needed.

Sunglasses

Where practical Lynbrook Primary School encourages students and staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Curriculum

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Lynbrook PS will address sun and UV safety education as part of the curriculum in all year levels.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

Engaging students, staff and families

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, Compass, school website, staff and parent meetings, school assemblies, school camps and at the student orientation/enrolment process.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

As part of OHS UV risk controls and role- modelling, staff, family and visitors:

- Wear a sun protective hat, covering clothing and, if practical, sunglasses.
- Apply sunscreen: and
- Seek shade wherever possible
